

Hammerhead Security - Corporate Capabilities

Professional unarmed security services, training-connected operations, and technology-enabled accountability.

Company Hammerhead Security Solutions LLC	Security Division Hammerhead Security	Service Model Professional unarmed contract security
---	---	--

Capability Focus

Hammerhead Security supports organizations that need reliable unarmed guard coverage backed by clear post orders, active supervision, structured documentation, and responsive leadership.

Core Capabilities

- Unarmed security officers and dedicated standing posts
- Access control, gatehouse, visitor and vendor management
- Warehouse, distribution, commercial, residential, construction and event security
- Fire watch and temporary life-safety support when applicable
- Site-specific post orders, incident reporting and activity documentation
- Security-program transition planning and emergency coverage evaluation
- BluewaterOS-enabled scheduling, attendance, reporting and operational visibility

Why Hammerhead

Hammerhead combines experienced security leadership, a direct connection to Bluewater Security Academy, site-specific post design, professional unarmed officers, structured reporting, and BluewaterOS operational technology. The objective is not simply to place a guard on a post, but to create a supervised and documented security program around the property.

Best Fit

Commercial properties, residential communities, warehouses and logistics operations, construction sites, events, and organizations seeking a responsive regional security partner.

Procurement & Next Step

Hammerhead supports formal proposal and vendor-review workflows. Service availability is subject to applicable licensing, staffing, location, assignment requirements, and contract review. Request a site-specific proposal at hammerheadsecurity.org or call (252) 725-8356.

No weapons are depicted or promoted in Hammerhead website imagery. Hammerhead Security specializes in professional unarmed security services.
